RE: NOTICE - Spring Landscape Updates

On behalf of the YRVLCC 968 Board of Directors please see the following updates:

The revitalization project to the update common element turn circle garden beds will commence today.

Throughout this week Melfer will begin the removal of the existing plantings in the gardens.

By mid-May the new replacements will be ready for planting.

Based on the foregoing, weather permitting, the entire project should be completed no later than the end of May.

If you are located on a cul-de-sac please expect the possibility of minor traffic delays and take extra precaution around the workers and machinery.

In addition, Davey Tree, the Corporations arborist will be on site today to start deep root fertilization on some trees. Application is applied below ground using a prong and rod.

Thank you,

Adam Hassan
